

PPD Learning Ltd

NLP for the 21st Century

An innovative, new NLP seminar
for PPD Learning from Robert Dilts

The Art of Authentic Charisma

Communicating with Confidence, Congruence and Impact.

With Robert Dilts

25-27 February 2011

The quality of authentic charisma is often 'the difference that makes a difference' in our ability to positively influence, collaborate generatively and contribute to the growth and transformation of others.

Connecting to the source of your confidence and discovering the 'area of excellence' that is the foundation of your personal power will strengthen your effectiveness as a coach, trainer, manager and professional communicator of any type.

You'll learn how to bring out the best in yourself - your passion, determination, aliveness and grace - while connecting more deeply to people in both your personal and professional life.

“ *This is the real promise of systemic NLP - to develop the skills and tools we need to thrive and grow in our challenging and dynamically changing world.*

At PPD Learning we offer the kind of transformational NLP that profoundly engages with the kinds of problems people face today.

Robert Dilts is simply one of the world's foremost, generative NLP trainers and we are delighted, once again, to be presenting his inspirational, pioneering work. ”

Judith Lowe, MD and Principal trainer PPD Learning
