

New - Mastery of Fundamental NLP Skills

With Noella Jansen and Paddy Bergin

Most NLP techniques and models have come from modelling excellence which is the focus of NLP as a discipline. Fundamental NLP skills are the building blocks to NLP mastery. There is a direct relation in the ability to use these basic skills and your success in and mastery of NLP.

In this weekend seminar you will deepen your knowledge on how to:

- * Establish and Maintain Rapport
- * Use Perceptual Positions
- * Check and work with Representational Systems & Submodalities
- * Use and Challenge Meta model patterns
- * Achieve and maintain Different States
- * Apply the T.O.T.E. model
- * Establish well-formed outcomes

This weekend seminar is intended for delegates who want to refresh their fundamental NLP skills. It can be recommended, especially for people who have done the short Practitioner trainings, as a preparation seminar for PPDL's Ultimate NLP Master Practitioners Training.

Dates: 27-28 September

Cost: £250 plus VAT

Venue: Central London
